

HEALTHY SCHOOLS ACT OF 2000

The Healthy Schools Act of 2000 requires all California school districts to notify parents/guardians of pesticides, which may be applied during the year. It is the policy of Fresno Unified School District to use the least toxic pest management practices in order to reduce pesticide exposure of the students. The District applies pesticides only when less toxic methods have failed. Only personnel trained in principles of integrated pest management may apply these pesticides. Parents/Guardians may request prior notification, in writing, at least 72 hours before pesticides are applied. Notices of this pesticide application will be posted at the school.
